

Module 5

koku17

April 22, 2024

Contents

1	LIMITATIONS OF ALGORITHMIC POWER	1
1.1	Decision Trees	1
1.2	P, NP, and NP – Complete Problems	1
2	COPING WITH LIMITATIONS OF ALGORITHMIC POWER	1
2.1	Backtracking (n – Queens problem,Subset – sum problem)	1
2.2	Branch – and – Bound (Knapsack problem)	1
2.3	Approximation algorithms for NP – Hard problems (Knapsack problem)	1

1 LIMITATIONS OF ALGORITHMIC POWER

1.1 Decision Trees

1.2 P, NP, and NP – Complete Problems

2 COPING WITH LIMITATIONS OF ALGORITHMIC POWER

2.1 Backtracking (n – Queens problem, Subset – sum problem)

2.2 Branch – and – Bound (Knapsack problem)

2.3 Approximation algorithms for NP – Hard problems (Knapsack problem)
